

**Fill Factory s.r.o.**  
Czech Republic

## Minimodules and customized PV modules

### Structure of the module:

- glass-glass, glass-backsheet and for ultra lights modules - aluminium sheet, carbon fibre

### Colour of the backsheet:

- white, black, see-through, natural or anodized aluminium and other on request

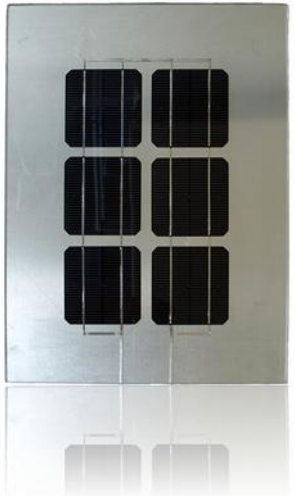

### Colour of the of solar cells:

-standard: blue, black, green, red, yellow, brown (see our [Colour cells](#) leaflet)  
-non standard: according the request done by our deposition technology and our designing software

### Type of the solar cells:

Mono-crystalline, multicrystalline, quasi-mono crystalline with standard or customized shape via our [laser processing capability](#).

### Production from 1 pc...

*Backside aluminium, cuts 1/4 Glas/white backsheet, full 6 of 5 inch monocrystal*

*inch monocrystal*

*Glas/white backsheet, 1/2 of 6 inch monocrystal*

*Glass/aluminium, 4 inch monocrystalline cells*

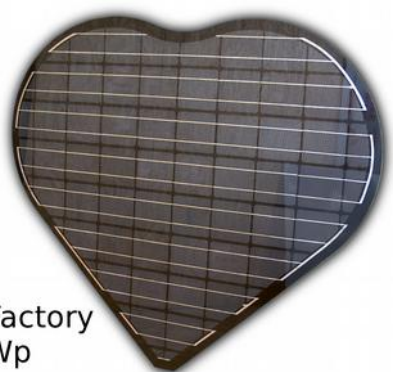

*Back side aluminium, monocrystal, shingle connection*

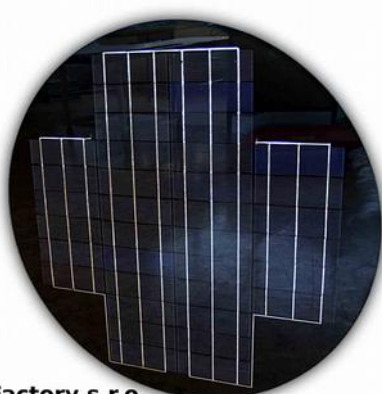

*Back side aluminium, multicrystal, standard ribbon connection*

*Glass/white backsheet, single Laminated of our [irradiation sensor](#)*

**Fill Factory**  
48 Wp

**Fill Factory s.r.o.**  
48 Wp, Diameter=75 cm

*Glas/black backsheet, monocrystalline cells*

*Glas/black backsheet, multicrystalline cells*

*Glas/white backsheet, cuts of monocrystalline cells*

*Glass/matt glass facade module, decreased size of 6 inch monocrystalline cells, 170 Wp*
